

## ELEMENTARY ACTIVITY LESSON PLAN

### HOW IT WORKS

It's simple. The smallest acts of kindness can have a huge impact. Sparty's Kind Kids encourages young minds to help Spartans across the globe make the world a better place.

### OBJECTIVES

1. Children will be able to give an example of being kind.
2. Children will be able to corelate kindness and making the world a better place.
3. Children will be able to draw and write a sentence about what they would like a group to do to be kind and in turn make the world a better place.

### CONNECTION

*What have you done lately that is kind?*

*How does doing something kind make you feel?*

*Do you think when someone does a kind act it can change the world?*

Sparty believes it can change the world and wants to partner with you to think of how others can spread kindness around the world. We are going to do an activity where we brainstorm how that kindness that can help change the world and you get to draw it.

Let's talk with our groups about ideas that will help spread kindness.

What is something you can do? \*Sparty example: Be kind to Wolverines

### ACTIVITY

Go over the Sparty Kind Kids handout (but don't hand out yet).

Before they start drawing, have them talk in their table groups about their ideas.

Pass out Sparty Kind Kids handout and have the kids work on them at their table.
