Dear Alumni and Friends:

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands…” Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form, from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins mingle among sparkling turquoise glaciers and glimmering icebergs. Be among the fortunate few to discover Antarctica, and see how its spectacular illuminations reveal the mystique and contrasts of this unique place to those fortunate enough to visit on this extraordinary 14-day travel program.

Retrace the sea-lanes navigated by storied explorers Shackleton, Amundsen and Scott, who sought out the final frontier of “The White Continent.” Cruise for nine nights aboard the exclusively chartered, state-of-the-art, Five-Star, ice-class LE BORÉAL, one of the finest vessels plying Antarctic waters. With private balconies in 95 percent of its ocean-view, Five-Star accommodations and encompassing state-of-the-art ship design and technology, LE BORÉAL sets the highest standards in elegance and comfort.

The onboard expedition team of naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals who have no fear of humans. A comprehensive schedule of exclusive and specially arranged lectures will enhance your Antarctic experience.

This once-in-a-lifetime, comprehensive program is the best Antarctic cruise value, featuring ocean-view accommodations aboard a Five-Star expedition ship and including all excursions and complimentary alcoholic and nonalcoholic beverages on board. It is simply the optimal cruising experience and sells out quickly year after year. Make your reservation now!

Study Leader

Dr. William Porter is the Boone and Crockett Professor of Wildlife Conservation at Michigan State University. He brings more than 30 years’ experience as a naturalist and field biologist, and is an award-winning teacher and author. Dr. Porter’s research has played central roles in restoration of wildlife and in the management of overabundant species. He teaches courses in winter ecology, wildlife management, wildlife policy, and leadership. In recent years Dr. Porter has been conducting a winter course in Yellowstone National Park. He and his wife are avid travelers, birders and wildlife photographers.

Please note that a minimum number of passengers is required to confirm faculty participation.
Wildlife Conservation

The unique international Antarctic Treaty protects Antarctica’s wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.

To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. All visitors will be asked not to remove—or leave—anything ashore.

Buenos Aires, Argentina
Sunday, January 6
Arrive in cosmopolitan Buenos Aires and check into the Five-Star InterContinental BUENOS AIRES HOTEL, ideally located within walking distance of the landmark Palace of the Argentine National Congress. This evening, attend the Welcome Reception.

Buenos Aires
Monday, January 7
Birthplace of the tango, Buenos Aires is a city of diverse and dynamic barrios (neighborhoods). See the colorful La Boca district, Monserrat’s grand public buildings, historic Plaza de Mayo, Palermo’s lavish parks, Puerto Madero’s lively riverfront community and the charming old quarter of San Telmo.

Visit the city’s renowned Recoleta Cemetery—lined with ornate vaults and sculptures, this is the final resting place of Eva Perón, the legendary former First Lady of Argentina.

Buenos Aires/Ushuaia
Tuesday, January 8
This morning, fly to Ushuaia, the world’s southernmost city, capital of Tierra del Fuego and the gateway to Antarctica. Embark Le Boreal this afternoon and cruise through storied Beagle Channel, named for the ship that carried Charles Darwin on his South American voyages.

Attend the Captain’s Welcome Reception this evening.

Cruising Drake Passage
Wednesday, January 9, to Thursday, January 10
Cross the legendary Drake Passage and, upon reaching the Antarctic Convergence, watch for seabirds and breaching fin and humpback whales feeding on plankton and krill brought to the surface by cold Antarctic currents merging with warmer waters of the South Pacific and Atlantic Oceans.

Your expedition team of naturalists will present insightful lectures, preparing you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

**Cruising Antarctica**

**Friday, January 11, to Tuesday, January 15**

Cruise below the 60th parallel south to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever-changing patterns of ice stretch toward the boundless blue horizon. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated with riveting wildlife and historic outposts, unfolds — completely immersing you in the irresistible nuances of Earth’s most inaccessible continent for the complete Antarctic experience.

Cruise through breathtaking, glacier-lined **Neumayer Channel** to rugged Goudier Island. Visit **Port Lockroy**; nestled among serene mountain peaks as high as 6000 feet, the port was originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and converted into a whaling station and scientific base in the 1950s, and its surrounding grounds are populated by blue-eye shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as “Base A” and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Rocky **Jougla Point** on **Wiencke Island** offers a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls that inhabit the entire region. Call at **Petermann Island**, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the **Lemaire Channel**, where seven majestic miles of mountains and interweaving patterns of ice floes brim with wildlife. Listen for the low rumbling of Rudolf Glacier as it calves slabs of ice into **Neko Harbor**, named for an early 20th-century whaling boat. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition. Here, make your first “continental landing” in Antarctica.

In **Paradise Bay**, crystal cliffs of ice descend from sky-bent mountains into the iceberg-laden waters along the Antarctic Peninsula’s western coast. Named by 19th-century whalers who sought shelter in its coves, it is an ideal sanctuary for

marine wildlife including humpback whales, crab eater seals and Cape petrels. Deception Island, actually the rim of a dormant volcano crater, encircles the Port Foster caldera, where the ship enters through Neptune's Bellows, a sublime harbor ringed by snow capped peaks and sheer cliffs. In Pendulum Cove, see the steaming, geothermally heated shallows. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, for firsthand insight into the pivotal volcanic activity that created the island and shaped the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, crescent-shaped Half Moon Island is known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island's colony of chinstrap penguins.

Relax and reflect on board as the ship turns north, and attend the Captain's Farewell Reception.

Cruising Drake Passage/ Ushuaia, Argentina

Wednesday, January 16

Cross the Drake Passage and enjoy lively, informative discussions with the ship's naturalists. Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence.

Disembark in Ushuaia and fly to Buenos Aires. Continue on the Iguazu Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S.

Exploration of Antarctica

The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton; Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth; and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd, scion of a distinguished Virginia family, led the U.S. Antarctic expedition (1928-30) and made the first overflight of the South Pole (1929). Byrd later led three additional expeditions to Antarctica and named a large portion of the continent Marie Byrd Land after his wife. Another American prominent in the exploration of the South Polar region was Lincoln Ellsworth. This Chicago native made the first flight across Antarctica (1935). In the course of his journey, he discovered the mountain range with the continent’s highest peaks, later named Ellsworth Mountains in his honor.

Your Expedition Team

Seasoned naturalists, who have studied and traveled extensively in Antarctica and the most remote regions of the world, accompany you on board and on excursions as your Antarctic Expedition Team. Their areas of expertise span marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. The team’s collaborative efforts, experience, particular interest in the world’s ecosystems and enthusiasm for sharing their knowledge make them exceptionally well-suited to lead your Expedition to Antarctica.
