Expedition to **Antarctica**

Aboard the Deluxe *M.S. Le Boréal*

January 26 to February 8, 2015

Hosted by MSU Professor Emeritus Jim Detjen
Dear Alumni and Friends:

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky, the land appears as layers of silvery or golden cloud, cloud banks look like land, and icebergs masquerade as islands.” Discover how normal human scales and reference points disappear amid the grandeur of nature in its most pristine form. From the long sunrises that paint the icescape in soft shades of pink and gold to the lingering light of the austral summer, humpback whales, leopard seals and Adélie penguins mingle amid glistening turquoise glaciers and sparkling icebergs. Antarctica’s spectacular illuminations reveal the contrasts and marvels of the most unique place on Earth to those fortunate enough to visit.

Retrace the sea-lanes traveled by storied explorers Ernest Shackleton, Roald Amundsen and Robert Falcon Scott as they sought out the final frontier of “The White Continent” on this extraordinary 14-day program featuring a nine-night cruise aboard the exclusively chartered, Five-Star, ice-class M.S. LE BORÉAL (launched in 2010). The custom-crafted M.S. LE BORÉAL showcases private balconies in 95 percent of the all ocean-view, deluxe accommodations and encompasses a new generation of ship design and technology.

Your Antarctic experience will be enhanced by a comprehensive schedule of exclusive lectures. MSU Professor Emeritus Jim Detjen will accompany the group and share his knowledge of this unique part of the world. The onboard expedition team of expert naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals, who are unafraid of humans.

This once-in-a-lifetime, comprehensive program features Five-Star accommodations, all excursions and all meals on board ship, and is simply an optimal cruising experience that has sold out quickly year after year. The space is limited to only 90 Staterooms. I urge you to place your reservation soon, while Early Booking Savings and space are available!

Go Green!

Jim Detjen has been a professional journalist for more than 40 years and worked as a science and environmental writer at the Philadelphia Inquirer, the Louisville Courier-Journal and other news media. He grew up in the Hudson Valley of New York State and received a B.S. degree from Rensselaer Polytechnic Institute in Troy, N.Y. and a master’s degree in journalism from Columbia University. He retired as the Knight Professor of Environmental Journalism at Michigan State University last year. During his 18-year teaching career at MSU he was the founder and director of the Knight Center for Environmental Journalism. Jim has hosted three previous tours for the MSUAA including Antarctica.

Travelers, whether alumni or friends, must be current MSUAA members to participate in Association travel offerings. For more information on membership rates, call the MSU Alumni Association at (877) 678-2586. You may also join on-line at www.alumni.msu.edu. Tour reservations will be confirmed upon verification of Alumni Association membership. Membership dues are non-refundable. A minimum number of travelers is necessary to send the MSU host.
Wildlife Conservation

The unique international Antarctic Treaty protects Antarctica's wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.

To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to over visit rookeries, disturb nesting sites or disrupt research. All visitors will be asked to take—and leave—nothing ashore.

minke whales and seabirds feeding on plankton and krill brought to the surface by the cold Antarctic currents merging with the warmer waters of the South Pacific and Atlantic Oceans. The expedition team of naturalists will present insightful lectures to prepare you for your first landing in Antarctica.

Cruising Antarctica
Saturday, January 31 to Thursday, February 5
The ship cruises below the 60th parallel to the outer shores and islands of the Antarctic Peninsula, Earth's last frontier. Here, explore some of the world's most pristine wilderness, where towering mountains of ice and lava create precipitous coastlines and islands, and constantly changing patterns of ice stretch as far as the eye can see. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. From spectacular volcanic topography and majestic glaciers to fascinating wildlife and historic outposts, this itinerary reveals the highlights of the region for the complete Antarctic experience.

Please note that the ship's cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.

One of the smallest but most beautiful of the South Shetland Islands, Half Moon Island, is a crescent-shaped isle known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife.

Here, observe the antics of the island's colony of chinstrap penguins and enjoy the lingering twilight of the Antarctic summer.

Deception Island is actually the rim of a massive dormant volcano crater that encircles a caldera known as Port Foster, where the ship enters through dramatic Neptune's Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In Pendulum Cove, see the steaming, geothermally heated waters of the Antarctic. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, which offer fascinating insight into the volcanic activity that created the island and played a pivotal role in the natural history of the region.

In Paradise Bay, awesome cliffs of ice descend from the surrounding mountains into the floating iceberg-laden waters along the western coast of the Antarctic Peninsula. Named by 19th-century whalers who sought shelter in its coves, Paradise Bay is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals and Cape petrels. Listen for the low rumbling of Rudolf Glacier as it calves chunks of ice into Neko Harbor, named for an early 20th-century whaling boat. The harbor is surrounded by soaring glaciers and snow-covered mountains and is one of the most dramatic and spectacular sights in Antarctica. Here, make your first "continental landing" in Antarctica.

Cruise through breathtaking, glacier-lined Neumayer Channel to Port Lockroy. Originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II,
Port Lockroy was converted into a whaling station and scientific base in the 1950s. It is nestled among glistening mountain peaks as high as 6,000 feet, and the surrounding grounds are populated by blue-eyed shags and gentoo penguins. Gain insight into the lives of past explorers at the British Antarctic Survey Museum and mail a postcard stamped with an Antarctica postmark from the official British Post Office. Just beyond Port Lockroy, enjoy an excursion to the rocky shores of Jougla Point on Wiencke Island. Experience this rare opportunity to view the nearly intact skeleton of a full-size blue whale, and see populous colonies of gentoo penguins and kelp gulls. Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, Lemaire Channel offers views of seven majestic miles of mountains and wildlife combined with fascinating patterns of ice floes. Call at Petermann Island, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Cruise the Weddell Sea and see the enormous tabular icebergs that have calved from the Larsen Ice Shelf. See Brown Bluff’s spectacular 2,450-foot-high promontory jutting into the Antarctic Sound. Observe the area’s flourishing colony of friendly Adélie penguins, who may approach you for an up-close encounter.

Cruising Drake Passage/
Cape Horn
Friday, February 6
Relax and reflect on board as the ship turns north and crosses the Drake Passage. Enjoy lively, informative discussions with the ship’s naturalists. Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence and past Cape Horn, the most southerly point of South America and a milestone on world trade routes from the 19th century until the opening of the Panama Canal in 1914. Attend the Captain’s Farewell Reception this evening.

Ushuaia/Buenos Aires
Saturday, February 7
Disembark and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires, or depart for the U.S.

Your Expedition Team
Seasoned naturalists, who have studied and traveled extensively in Antarctica and the most remote regions of the world, will accompany you aboard the M.S. LE BORÉAL as your Antarctic expedition team. Their areas of expertise span marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. The team’s collaborative efforts, experience, particular interest in the world’s ecosystems and enthusiasm for sharing their knowledge make them exceptionally well-suited to lead your Expedition to Antarctica.

Exploration of Antarctica
The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton, Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd, scion of a distinguished Virginia family, led the U.S. Antarctic expedition (1928-30) and made the first overflight of the South Pole (1929). Byrd later led three additional expeditions to Antarctica and named a large portion of the continent Marie Byrd Land after his wife.

Another American prominent in the exploration of the South Polar region was Lincoln Ellsworth. This Chicago native made the first flight across Antarctica (1935). In the course of his journey, he discovered the mountain range with the continent’s highest peaks, later named Ellsworth Mountains in his honor.
