THE PANAMA CANAL

Sixteenth-century Spain explored the Panama Canal. The Atlantic Ocean is a canal or waterway that connects the Caribbean Sea and the Pacific Ocean. The Panama Canal was completed in 1913, but it faced problems with its initial construction, and it was not fully operational until 1914. The canal is 50 miles long and 100 feet wide. The canal opens to the Caribbean Sea by a series of locks at Gatun Lake. The locks lift ships to the higher level of the Panama Canal. As you transit its locks, marvel at the superlative services of a doting crew.
